Objective

Passionate and detail-oriented Front-End Developer with expertise in React.js, Next.js, and modern UI frameworks. Skilled in building scalable, high-performance web applications with a strong focus on user experience, responsive design, and efficient state management. Adept at collaborating with cross-functional teams to develop interactive, feature-rich applications while maintaining clean, maintainable code. Seeking to leverage my technical expertise and problem-solving abilities to contribute to innovative projects and drive impactful digital solutions.

Work Experience

Front-End Developer at Evyx | June 2025 – Present

- Enhanced overall app performance by implementing **code-splitting, lazy loading, and bundle analysis**, resulting in a **35% improvement in Core Web Vitals**.
- Collaborated with backend and product teams to **redesign user flows, debug production issues**, and deliver a more streamlined and intuitive user experience.
- Improved data-fetching performance using **TanStack Query**, leveraging caching, optimistic updates, invalidations, and robust error handling.
- Resolved critical initial-load issues and **optimized server-side rendering** for faster page transitions and smoother UX.

Front-End Developer at XAI Technology | July 2024 – Apr 2025

- Developing and maintaining scalable, high-performance web applications using **React.js and Next.js**.
- Collaborating with cross-functional teams to implement innovative UI/UX designs and **optimize user experience**.
- Integrating third-party APIs to enhance application features and improve data communication with backend services.
- Worked closely with backend developers to ensure seamless data flow and API consumption in a structured, scalable manner.

Front-End Developer at Domar | Jan 2024 – June 2024

- Developed and maintained responsive web applications, ensuring optimal performance across various devices and browsers.
- Collaborated with UI/UX designers to translate wireframes into interactive, high-quality user interfaces.
- Utilized GitHub for version control, ensuring clean, modular, and maintainable code following best practices.

Projects

Tradelink Global (at XAI)

Overview: Successfully launched and available on Google, Tradelink Global is a platform designed to facilitate global trade.

Key Features:

- Streamlined trading operations
- Secure data management

- Scalable architecture
- Real-time chat using Socket.io

Joystick (at Evyx)

Overview: A controller Repair & Accessories E-Commerce (Platform & Admin Dashboard)

Tech Stack: Next.js, TanStack Query, ShadCN, MUI

Key Features:

- Built the front-end of a web platform for PlayStation controller repair services and accessory shopping
- Collaborated with backend and product teams to **redesign user flows, debug production issues**, and deliver a more streamlined and intuitive user experience
- Developed a dynamic UI allowing users to request home repairs, browse products, and place orders via REST API integration .
- Developed an admin dashboard for managing technicians, teams, orders, and inventory (React Only).

Taswera platform (at Evyx)

Overview: A photography management platform for Taswera branches, enabling customers to browse, edit (via Fabric.js), and purchase their photos, while providing branch managers and admins with tools to manage orders, photographers, and branch operations

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, ShadCN/UI, TanStack Query, Fabric.js, REST API

Key Features:

- Customer photo browsing and purchasing
- Built-in Fabric.js photo editor before printing
- Branch Manager dashboard for order and photographer management
- Admin dashboard for multi-branch oversight

Skills

Hard Skills:

- **Front-End Development:** React.js, Next.js, JavaScript (ES6+), TypeScript
- **UI/UX & Styling:** Tailwind CSS, Chakra UI, Material UI, CSS3, HTML5
- **State Management & Data Fetching:** TanStack Query, React Context API
- **Web Technologies & Tools:** GitHub (Version Control), RESTful APIs, WebSockets
- **Performance Optimization:** Code-splitting, Lazy Loading, Caching
- **Backend Integration:** API consumption, Authentication, Stripe Payment Integration
- **Testing & Debugging:** Chrome DevTools, Error Handling, Console Debugging
- **Design & Prototyping:** Figma

Soft Skills:

- **Problem-Solving:** Strong analytical skills to debug and optimize applications
- **Attention to Detail:** Writing clean, efficient, and maintainable code
- **Collaboration:** Experience working in agile teams with designers, developers, and product managers
- **Adaptability:** Quick learner with a passion for keeping up with emerging technologies
- **Time Management:** Ability to handle multiple projects and meet deadlines efficiently
- **Communication:** Effective in explaining technical concepts to non-technical team members

Education

Cairo University | 2022 – Present

Languages

- **Arabic:** Mother Tongue
- **English:** B1
